Medford, MA | (419) 212-5299 | dasparomita1984@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | U.S. Permanent Resident

PROFILE

Advanced Analytics & AI leader with 10+ years of experience building AI-enabled workflows, KPI automation, and executive decision-support systems. Skilled in Python, SQL, GenAI/LLMs, LangChain, RAG, experimentation, and BI automation to drive growth, efficiency, and strategic decisions.

EXPERIENCE

Consumer Reports | Yonkers, NY Oct 2019 - Present

Senior Manager / Manager, Business Analytics

- Built AI-enabled KPI workflows, executive dashboards, and automated reporting agents across Marketing, Product, Editorial, Membership, Licensing, and Communications, reducing recurring analytics effort by approximately 40%.
- Designed custom analytics skills and reusable decision frameworks, including Content Score, to convert multi-dimensional content performance into prioritized recommendations for portfolio strategy.
- Led AI-assisted personalization, experimentation, and customer journey analytics across homepage, payroll, funnel, and member experiences; optimized a non-member homepage flow that increased paid subscriptions by 12%.
- Scaled Tableau and BI reporting plugins across 200+ product categories, social media, and the CR Ratings app, partnering with Data Engineering and BI to operationalize governed analytics workflows.
- Supported CR Recommended licensing growth through AI-ready measurement strategy, customer insights, and executive reporting, contributing \$2M+ in revenue and earning the 2022 Smashing Success Award.

American Airlines | Tulsa, OK May 2019 - Aug 2019

Supply Chain Analytics Intern

- Analyzed five years of demand, purchasing, lead-time, cost, and supplier data; recommended a Continuous Review inventory policy for high-value engine components, delivering approximately \$500K in savings and earning the Above & Beyond Award.
- Built a SQL/Tableau supplier scorecard using quality, defects, price, fulfillment, and lead-time metrics to improve sourcing visibility and flag performance deterioration.

Independent Consulting | St. Louis, MO 2015 - 2019

Consulting Associate / Analytics & Digital Strategy Consultant

- Delivered market intelligence, SEO, competitive analysis, KPI frameworks, and analytics roadmaps for travel, lifestyle, healthcare, and local-business clients; contributed to approximately 30% organic traffic growth for a digital platform.

Time Inc. India | Bangalore, India Sep 2010 - Jun 2015

Assistant Manager / Senior Analyst / Analyst

- Led audience, product, content, and marketing analytics for 17 digital brands with 30M+ monthly users, leveraging Adobe Analytics, Comscore, Nielsen, search, social, email, and referral data to drive growth insights, monetization strategy, and reporting quality; earned three promotions and launched the India office's first Analytics QA function.

Tata Consultancy Services - Unilever | Bangalore, India Jan 2009 - Aug 2010

Senior Process Associate

- Analyzed U.S. retail sales and Nielsen market research data for Unilever consumer brands across food and personal care, evaluating category performance, pricing, promotions, and shopper behavior; served as an analytics SME and trainer and received the 2009 Star Performer Award.

KEY ACHIEVEMENTS

CR Recommended Licensing

Built measurement frameworks and customer insights that supported program launch and growth, generating \$2M+ in revenue; received the 2022 Smashing Success Award.

Content Score

Developed and operationalized a repeatable content-performance framework to guide portfolio prioritization and growth decisions.

200+ Category Portfolio

Scaled dynamic reporting and decision support across more than 200 product categories plus social and app experiences.

Analytics QA Launch

Created Time Inc. India's first Analytics QA function, including standards, validation checklists, documentation, and training.

Inventory Cost Savings

Delivered approximately \$500K in inventory savings through an aircraft-engine component replenishment recommendation.

AI Workflow Efficiency

Saved 15 hours of the team's manual data-pulling and research time through governed AI-enabled reporting workflows.

SKILLS

Analytics & Strategy: KPI frameworks, forecasting, experimentation, segmentation, cohort analysis, conversion, retention, LTV, executive storytelling

Data Science & AI: Python, SQL, R, regression, Random Forest, K-Means, NLP, GenAI/LLMs, LangChain, Prompt Engineering, AI Agents, RAG, Vector Databases, Embeddings, LLM Evaluation, Custom AI Skills

Platforms: Tableau, Power BI, Adobe Analytics, GA4, Streamlit, GitHub, Jupyter, VS Code

SELECTED PROJECTS

Executive Analytics Intelligence

AI/Streamlit executive KPI and briefing platform.

Customer Growth Intelligence

RFM, market basket, and next-best-product engine; identified approximately £1M revenue opportunity.

Personalization Engine

Improved click-prediction AUC from 0.57 to 0.69.

EDUCATION

MS, Business Analytics - University of Tulsa, 2019

PGDM/MBA, Finance - IFIM Business School, 2009

BSc, Biotechnology - Bangalore University, 2006
